Why Astrology and Numerology?

Every child carries an inner genius waiting to bloom. By drawing on thousands of years of astrological and numerological wisdom — refined for modern parents — you can unlock your child's **full potential**, build a **deeper connection** with your child's unique nature, and tap into **ancient wisdom** to nurture your child from day one.

ASTROLOGY

Astrology is the ancient study of how the positions of the stars, moon, and planets at the exact moment of your child's birth shape your child's personality, emotional world, and life path. Each celestial body carries a unique energy — from the bold confidence of the Sun to the tender emotions of the Moon — painting a one-of-a-kind cosmic portrait of who your little one truly is.

NUMEROLOGY

Numerology is the mystical science of numbers — the belief that the numbers woven into your child's birth date and name carry powerful vibrations that reveal hidden talents, soul desires, and life purpose. By understanding these numbers, you gain a deeper window into your child's inner world and the unique gifts your child has brought into this lifetime.

Together, these ancient systems create a holistic map of your child's cosmic design.

Know Stella's Core Identity

ASTROLOGICAL BLUEPRINT

☉ Leo Sun — Who Your Child Is at Their Core

SUNNY

GENEROUS

PLAYFUL

PROUD

WARM

A radiant little sunbeam, born to shine. Your child is warm, generous, and a little bit dramatic — life is your child's stage, and glows when they feel seen and adored.

☾ MOON

Libra

Your child feels safest when the room itself feels peaceful — soft voices, gentle energy, kind faces. Big arguments or sharp tones can make your child shrink and try to smooth things over. Help your child notice and name what they actually want, not just what keeps everyone else happy.

↑ RISING

Virgo

Tidy, polite, with watchful little eyes. A calm 'old soul' that grown-ups instantly trust.

☿ MERCURY

Virgo

A clever little thinker who genuinely wants the world to make sense. Loves details, lists, and learning the why behind every how — surface answers leave your child quietly unsatisfied. Explain things properly, even simple ones, and watch the focused, careful understanding light up.

♀ VENUS

Virgo

Loves by helping. Makes you cards, brings you snacks, remembers what makes you smile. Care is your child's love language.

♂ MARS

Gemini

Your child's energy lives in your child's head. Bored brains feel restless — fill your child with puzzles, books, and pretend play.

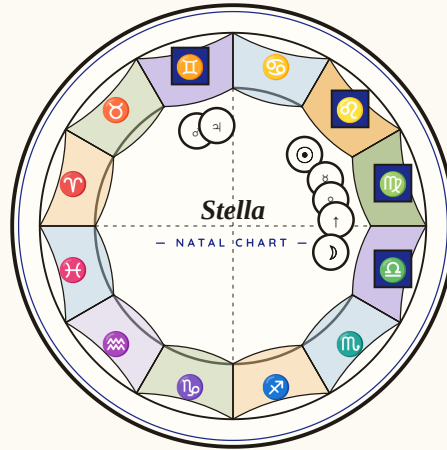

♃ JUPITER

Gemini

Grows through new ideas, new places, and meeting all kinds of people. Show your child the world.

Stella's Cosmic Wheel

✨ NOTABLE PLACEMENTS

🌊 FLEXIBLE AND ADAPTABLE

A wonderfully adaptable spirit — flexible, curious, and quick to flow with change.

✨ A STRONG VIRGO STREAK (3 PLACEMENTS)

Mercury, Venus, Rising all land in Virgo ♍. That means Virgo traits — thoughtful, observant, and detail-loving — they notice the little things, like neatness, fairness, and doing things 'the right way' — will show up clearly in how your child feels, thinks, and connects with others.

🍀 GROWS EASIEST THROUGH AIR ACTIVITIES

Jupiter (the "grow & expand" planet) sits in Gemini ♊ — your child blooms fastest with social, curious, talky activities (reading, debates, group games, music). Lean into those and watch confidence build.

LIBRA MOON — HOW YOUR CHILD FEELS

The Libra Moon Within Stella

Your child feels safest when the room itself feels peaceful — soft voices, gentle energy, kind faces. Big arguments or sharp tones can make your child shrink and try to smooth things over. Help your child notice and name what they actually want, not just what keeps everyone else happy. Practising small, safe "I'd rather..." moments builds a strong inner compass.

Emotional Sensitivity

Wilts when ignored or compared. Your child needs to feel special and seen.

Sensory Sensitivity

Your child's Libra Moon adds: Loud voices and ugly feelings really rumple your child. Your child thrives with calm and beauty.

TIP

 *Tip: Create a calm-down corner with soft textures and dim lighting for when big feelings rise.*

NUMEROLOGY — THE NUMBERS WITHIN

6

LIFE PATH NUMBER

The Heart-Keeper

Your little one is here to love and be loved. Your child naturally takes on the 'little parent' role — teach your child it's safe to receive love, too, not just give it.

11

EXPRESSION / DESTINY NUMBER

The Visionary (Master Number)

Shows up through imagination, art, and gentle inspiration that others somehow feel from across the room. Often spiritually wise from very young, with questions that catch grown-ups off guard. Your child's gift is making other people feel something true.

5

STELLA'S HEART'S WISH (SOUL URGE)

The Adventurer

Inside, your child craves variety, freedom, and the wonder of "what's next?". Repetition without novelty quickly turns into restlessness. Small changes of scene each day keep your child's spirit happy.

8

BIRTHDAY NUMBER

The Achiever

Capable and organized — the little one who runs the lemonade stand like a tiny boss. Expect leadership tendencies, sometimes a bossy edge. Gently coach your child on using your child's power kindly and including others.

Summing It All Up

S Stella arrived with a Leo Sun at the centre of your child's little universe — sunny, generous, playful. This is the spark that lights your child from the inside, the part of your child that wants to be seen, celebrated, and gently encouraged into the world. When you notice this in your child, you are not flattering your child — you are tending the seed of who your child comes here to be.

Underneath that bright surface lives a Libra Moon, the quiet weather of your child's inner world. This is the part of Stella that needs comfort, rhythm, and your warm attention to feel truly safe. Your child's Virgo energy is what the world meets first — the smile, the pause, the way your child walks into a room. Hold both: the bold sunlight and the tender moonlight. Both are real. Both are your child.

And woven through it all is your child's Life Path 6 — a quiet thread that shapes how Stella tends to meet the world.

A Note to You, Dear Parent

This guide is a compass, not a cage. Stella is infinitely more than any chart or number could capture. Use these insights as gentle whispers of understanding — not rigid rules.

The greatest gift you can give your child is the message: *"I see you. I accept you. I celebrate exactly who you are."*

Return to this guide as Stella grows. Some patterns will become clearer over time, others will shift as they develop — use it as a reference, not a fixed answer.
